

SEX RATIO IN INDIA

The map shows clear regional variation in India's sex ratio. Southern and eastern states such as Kerala (1084), Tamil Nadu (996), and Odisha (979) record higher ratios, indicating a more balanced gender composition. In contrast, northern and northwestern states like Haryana (879), Delhi (868), and Punjab (895) show lower ratios, reflecting persistent gender imbalance. Overall, the map highlights India's north-south divide in gender equity, with southern regions performing significantly better.
